

## **INVITATION: Research Delegation in Israel Hashomer Hatzair Germany 18.-27.03.2022**

Hashomer Hatzair\* is the oldest, still existing Jewish youth movement in the world. Until 1938, Hashomer Hatzair was active in several cities in Germany. In 2022, ten years after the official re-establishment of the youth movement in Berlin, we would like to bring the new generation of our movement in a search for traces and memories of the earlier generation of Hashomer Hatzair. You can read more about the project [here](#).

**We offer 5 places in the delegation for partner organisations or interested individuals** (ages 18-99), to join us as active guests, and to support our intergenerational project-team's work in Israel.

A joint delegation to Israel in March 2022 is in the center of our work, where we will visit archives and institutions, and meet families and organisations in public events and meetings. Together with Israeli partners, we plan to establish and deepen contacts between our movement in Germany and partner organisations in Israel that are also involved in humanist education and history-related work with children and young people. We are organising a study tour with workshops and discussions with youth movements, archives and other institutions, not only to gather information but also to create cooperation and shared learning from this project as a whole.

### What does it require?

- The project team will meet for a preparation seminar around Berlin on 25.-27.02., and at least one more time online before the trip
- We are looking for supporting team members who can lead or assist with different tasks around this work, from research and archive work to public relations and writing, workshop leading and translations
- The participation fee for the entire program, travel costs and accommodation is 500-1.000 EUR Depending on your funding possibilities.

**You can apply until 07.02.2022 using [this form](https://form.jotform.com/213213946061348), and will be contacted directly –**

**ABOUT US:** The non-profit organisation Hashomer Hatzair Deutschland (HHD) runs the secular, left Jewish youth movement that was re-established in Berlin in 2012. Since then, it has built a community of members to bring the values and passion of the youth movement back to Berlin. Currently Ken Berlin has 3 children and youth groups aged 8-18 who meet regularly and participate in annual educational camps, both nationally and internationally. The group sessions are planned and run by a team of young group leaders (guides) aged 16-21. ROSBOT, a sub-initiative, works on the development of materials for non-formal education and circulates them through trainings for multipliers (18+).
